MESSAGE FROM THE MAYOR

Downtown Orlando continues to grow, attracting new residents, visitors, businesses and events. With \$1.2 billion in ongoing development investment, there's more progress on the horizon. That progress supports our efforts to create a downtown that serves as a real neighborhood for every person. This doesn't happen without great collaboration.

The upcoming pages detail our collective achievements in 2023 and are a showcase of our gratitude to our community partners and businesses that enrich downtown and help create meaningful experiences. Together we will continue to work to move downtown forward. Thank you for your partnership.

MESSAGE FROM THE EXECUTIVE DIRECTOR

It brings me great joy to step into the role of Executive Director for the City of Orlando's Downtown Development Board and Community Redevelopment Agency.

I am genuinely excited and thankful for the dedication and passion of our community, stakeholders, and team members who work tirelessly to make a positive impact on downtown and the lives of those in our communities. Over the past year, we've experienced growth through exciting new developments, business openings, and engaging experiences that have drawn people back to explore downtown Orlando.

Last year, we continued to work on our Downtown Action Plan (Project DTO 2.0), a continuation of the visionary work of Project DTO. This action-oriented master plan focuses on streets, civic spaces, mobility options, districts, and neighborhoods. South Eola and Creative Village secured impressive rankings of 2 and 10 among the top 14 neighborhoods in Orlando. Collaborating with OUC, we upgraded light fixtures on our streets and for holiday activations, creating a safer and more pedestrian-friendly environment. We began leasing 30 South Orange which resulted in the creation of a remarkable mural in partnership with Visit Orlando showcasing our commitment to enhancing the community, and much more.

The vibrancy of downtown Orlando was illuminated with the launch of "Luminary Nights on the Green" at Luminary Green Park, in Creative Village with a 20-minute show turns the iconic ORLANDO sign into a canvas that comes alive with projected animations and lighting to music, all while showcasing the unique and authentic features of our city. Additionally, updates were made to our DTO Retail and Restaurant Program to encourage the expansion and recruitment of new retailers and restaurants to help establish downtown Orlando as a food and retail destination.

Exciting opportunities lie ahead as we continue to work together to shape our community and I am enthusiastic about serving and connecting with you as we embark on this journey together.

David Barilla, Executive Director

City of Orlando's Downtown Development Board + Community Redevelopment Agency

IN MEMORIAM: THOMAS C. CHATMON, JR.

Our former Executive Director of the City of Orlando's Downtown Development Board and Community Redevelopment Agency passed in July 2023. Thomas Chatmon was the heart and soul of our team and downtown hub for many years. He played a vital role in several major downtown developments, including Creative Village, Kia Center, the Dr. Phillips Center for the Performing Arts, Chase Plaza, and 55 West. He also helped formulate the city's response to the Covid-19 pandemic's negative impact on downtown businesses. We miss him with heavy hearts, and we will continue to honor his work and legacy as we work towards building the downtown he always dreamed.

DOWNTOWN COMMERCIAL AND RESIDENTIAL BUILDING IMPROVEMENT PROGRAM/DTO FAÇADE PROGRAM

The Downtown Commercial and Residential Building Improvement Program was created in 2008 by the Community Redevelopment Agency to encourage the reuse of vacant or underutilized properties, improve appearance, and support the long-term viability of downtown Orlando. The program guidelines were updated in 2023. Given the increase in costs associated with construction, there was a desire to amend the program to adjust funding amounts. In addition, other approved changes included a new program name, DTO Façade Program (DFP); modifying the eligible improvements and ineligible items lists found in the guidelines; and adding "focus areas." These "focus areas" were identified as key commercial corridors in which additional investment would encourage business-to-consumer concepts to enter the area, resulting in increased pedestrian activity. The purpose of the approved changes were to continue to assist downtown property owners with heavy maintenance and appropriate replacement of key façade features as was contemplated by the DTOutlook.

Five applicants were approved for funding in 2023, totaling \$311,788.20. One of the notable applicants, 642 West Church Street, was approved for \$157,406.80 in funding assistance for roof repair, windows, doors, HVAC, electrical, plumbing, fencing and structural improvements. One of the building's tenants is J. Henry's Barber Shop, one of Parramore's long serving and beloved businesses. Orlando City Council voted to restore the building that was damaged by fire. The applicant's capital investment in the project was estimated at approximately \$200,000.

Another approved applicant for the DTO Facade Program was 33 East Robinson Street. The applicant was granted \$105,382.40 in funding assistance for signage, roof, HVAC, and painting. The applicant's capital investment in the project is estimated at approximately \$132,000.

MINORITY/WOMEN ENTREPRENEUR BUSINESS ASSISTANCE PROGRAM

The Minority/Women Entrepreneur Business Assistance (MEBA) Program is an incentive program that was established to retain existing minority or women-owned businesses located within the Parramore district and to attract new minority or women-owned businesses to this area.

Taiche Professional Medical Services, located at 595 West Church Street, Suite F, applied for funding under the MEBA program. Taiche Professional Medical Services offers facials, IV therapy, and botox. They were approved for \$20,602.25 in funding assistance for capital equipment, rental abatement, and marketing assistance.

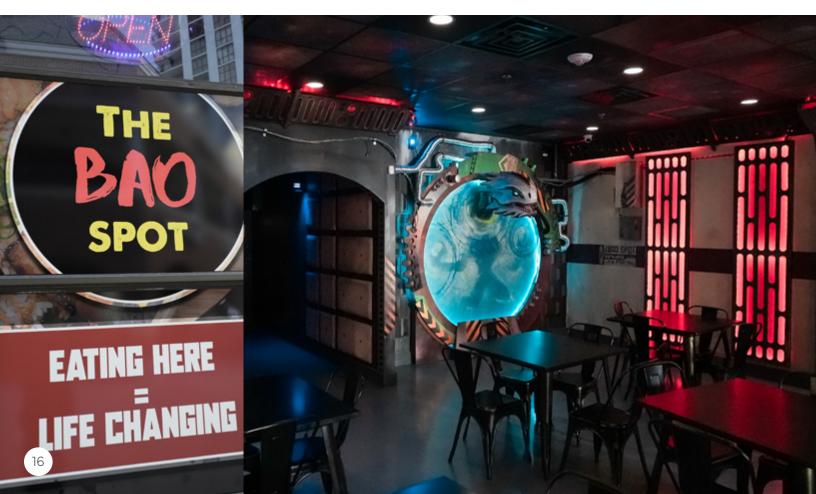

Additionally, Flamingo's Café, located at 595 West Church Street, Suite D, applied for funding under the MEBA program. Flamingo's Café offers a variety of food, including pizza, sandwiches, and coffee. They were approved for \$39,805.00 in funding assistance for capital equipment, rental abatement, and marketing assistance.

RETAIL STIMULUS PROGRAM/DTO RETAIL PROGRAM/DTO RESTAURANT PROGRAM

The former Retail Stimulus Program was divided into two programs, the DTO Retail Program and the DTO Restaurant Program. Funding is higher for the DTO Restaurant Program due to the higher build-out cost for high-quality dining restaurants. In addition, other changes included modification of the funding, eligible improvements, and ineligible businesses as well as the addition of "focus areas." These "focus areas" were identified as key commercial redevelopment corridors in which additional investment would encourage business-to-consumer concepts to enter the area, resulting in increased pedestrian activity.

One of the notable approvals, Luxe Med Spa Aesthetics, was granted \$200,000 in funding assistance for plumbing, drywall, mechanical, electrical, HVAC, lighting, flooring, and life safety improvements. The applicant's capital investment in the project is estimated at approximately \$1,328,656.

Additionally, The Bao Spot was approved for \$133,880 in funding assistance for signage, roof, HVAC, and painting for the property located at 36 East Jackson Street. The applicant's capital investment in the project is estimated at approximately \$150,000.

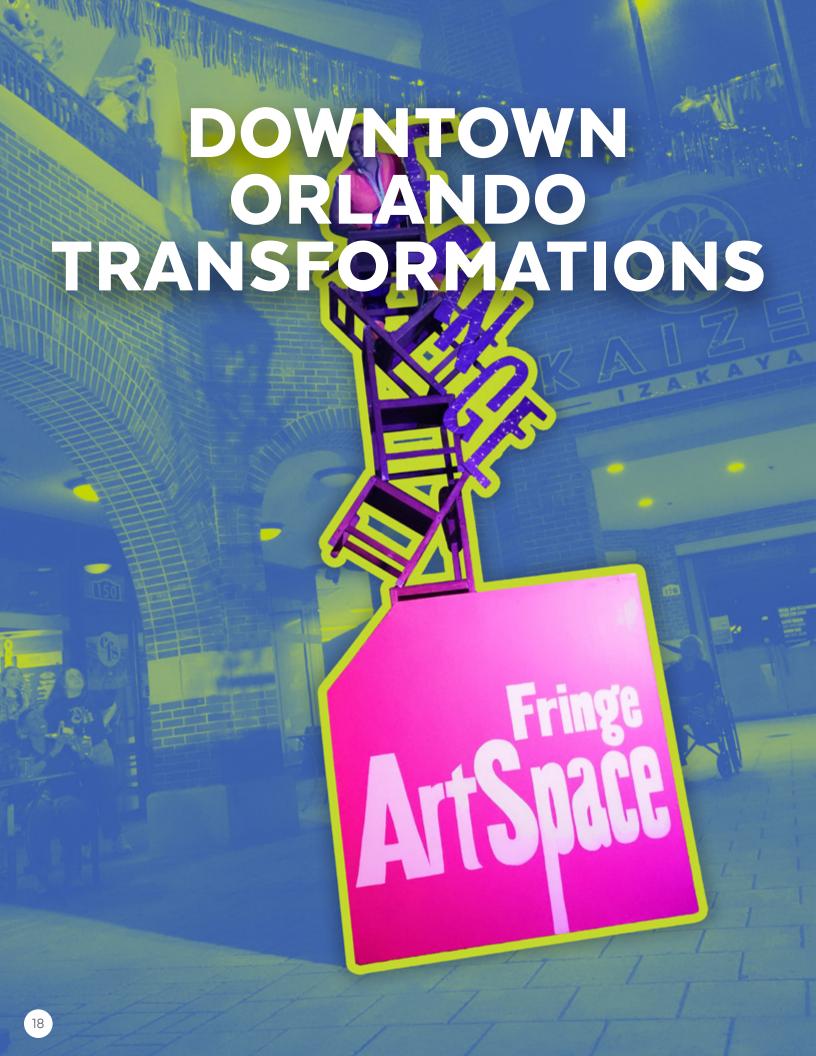

TAKING ACTION AGAINST GRAFFITI PROGRAM

A new incentive program was launched, Taking Action Against Graffiti, or TAAG, which allows owners of commercial, apartment, or office buildings to apply for an 80% match, or up to \$4,000 from the CRA to remove tags and add lighting, plants, a mural, or protective coating to prevent future graffiti.

Businesses within the Downtown Community Redevelopment Area can apply for a part of the \$100,000, budgeted by the Community Redevelopment Agency to be spent within its boundaries. The city adopted a similar program with \$48,000 from the city budget for those outside of the CRA.

Florida A&M University and Bethune-Cookman University joined us once again to host the college football's premier HBCU rivalry for the annual Florida Blue Florida Classic at Camping World Stadium. Each year, around 60,000 fans attend the game, but we know the Classic is more than just football. The Classic attracts visitors from all over the state to our area and contributes around \$30 million to our local economy every year. Since making Orlando its home in 1997, almost 1.5 million fans have attended the game.

THE U.S.A OLYMPIC TEAM TRIALS MARATHON ROUTE ANNOUNCEMENT

Orlando was announced as the city that will welcome the nation's elite male and female long-distance runners to compete at the U.S. Olympic Team Trials - Marathon for the chance to represent Team USA at the Olympic Games in Paris 2024. As the first city in Florida to host this prestigious event, the City of Orlando and our partners, Orange County, Track Shack Events, the Greater Orlando Sports Commission, USA Track & Field, and the United States Olympic & Paralympic Committee are proud that Orlando was home to all of the breathtaking moments. designated route took runners through downtown Orlando's

Central Business District, City District, South Eola, Lake Eola Heights Historic District, Lake Cherokee Historic District, and Thornton Park District before heading east along tree-lined streets to The Milk District.

THE POP-TARTS BOWL

Kanas State Wildcats defeated the North Carolina State Wolfpack 28-19 on December 28, 2023, in the Pop-Tarts Bowl at Camping World Stadium. Avery Johnson, in his first collegiate start, threw for 178 yards and two touchdowns and ran for another score. DJ Giddens had 152 rushing yards and one score as well. The 9-4 Wildcats capped off their 2023 season by taking a bite of the Pop-Tarts Bowl's edible mascot.

THE CHEEZ-ITS BOWL

On January 2, 2024, the most notable story surrounding pregame was none other than Ched-Z's arrival. The six-foot-tall Cheez-It Citrus Bowl mascot entertained fans throughout the game from his celebratory ways and whimsical sideline antics. The Louisiana State Tigers entered the contest coming off of back-to-back conference losses and had only one goal in mind — ending the season on a positive note and won against the Purdue Boilermakers.

PIS FOR PARKLET

We worked with the Thornton Park Main Street District to install parklets within the district to create better outdoor spaces for those out and about and visiting our businesses, especially those around South Eola. They've been a great addition to the neighborhoods as they create a welcoming environment.

PROTECTED BIKE LANE ON AMELIA STREET

The city installed a lane separator made from recycled plastic that features retroreflective material that allows it to be highly visible both day and night. But wait, there's more! There is a new bus stop boarder on Hughey Avenue that allows passengers to get on and off the bus safely. This is all part of the Project DTO 2.0's efforts to improve pedestrian mobility around downtown Orlando and provide safe transportation options for all residents along with creating more livable public spaces throughout the city. Ultimately, this project will increase safety for people biking, enhance accessibility for transit riders, and improve bus priority along the street.

DOWNTOWN LOOP PROJECT WAS COMPLETED

On February 23, we celebrated the opening of the Downtown Loop trail - a 10-foot-wide multi-use path that allows residents to have a safe way to travel downtown. The trail goes along Anderson Street, from Summerlin Avenue to Lake Underhill Road. This is another step to better the downtown area by creating a more bike-friendly and walkable environment.

LYMMO LIME LINE EXPANSION

The expanded Lime Line route started running from the North Quarter to LYNX Central Station then southward to the Beardall Senior Center and Lake Lucerne neighborhood with stops at Division Avenue, Anderson Street, Delaney Avenue, Gore Street, Orange Avenue, South Street, and Garland Avenue.

SWAN SHUTTLE

The SWAN Shuttle, powered by Beep technologies, launched in August 2023. It is a free, autonomous vehicle shuttle that carries passengers on a continuous loop from LYNX Central Station through Creative Village on the LYMMO Orange Line during off-peak hours.

The SWAN Shuttle, an autonomous mobility pilot program, is in partnership with LYNX and is being tested in Creative Village from August 2023 through June 2024. If successful, the pilot could be expanded throughout the city into areas like SODO or Ivanhoe Village. This innovative, future-ready transportation pilot will allow us to test the impacts of modernization and improved user experience on LYMMO.

ELECTRIC CHARGING HUB

The city's first fast-charging hub opened on 129 West Robinson Street. The new electric vehicle charging hub is the largest high-speed charging facility in Florida. It has 22 level 3 charging stations. This facility will help reduce carbon dioxide emissions of about 200,000 per year by 2025.
